

HEAVY EQUIPMENT

MANAGE YOUR IMAGE.

HEAVY EQUIPMENT

CONSTRUCTION, MINING & QUARRYING

Florida Chemical's Heavy Equipment Products help you maintain your heavy equipment and your image. Our cleaning and degreasing products keep your equipment looking its best. There is a wide range of products available to meet your operational needs.

Degreasers

Water based Heavy Duty Degreasers break down grease and oil so it can be easily removed from any equipment surface. Heavy Duty Degreasers are designed for optimal efficiency in non-heated wash applications.

Steam Compounds

High Caustic formulations break down heavy grease and oil during high heat steam cleaning operations so it can easily be removed from all kinds of equipment. Steam Compounds are designed for maximum performance in injection process steam cleaning.

Equipment Washes

Equipment washes rinse clean, leaving the exterior of your equipment looking its best. Easily remove road film, grease and oil from heavy equipment during regular maintenance cleanings.

One-Step

Features high free caustic content and additives for effective removal of grime, grease, oils, and carbon soot deposits. One Step is a moderate diluting product group for wash facilities that have experienced wash personnel.

Prep & Clean

Offers high dilution points and no free caustics for safe and effective washing. Prep & Clean products rinse free for high shine finish appearance. The Prep & Clean BR products offer the safety, dilution, and high shine of Prep & Clean with additives to promote the removal of carbon and soot deposits. Prep & Clean products are safe for all users.

Parts Washes

Spray or soak your parts in one of our parts cleaners to loosen grease, gasket residue and oils. Formulations area available to prevent rust in ferrous metal parts and can be ideal for cleaning aluminum.

Most of our heavy equipment cleaners can be additized to promote grease and oil release from the rinse stream which maximizes the efficiency of oil/water separation equipment.
